Summary

Software Engineer with hands-on experience in web and mobile development. Currently working with Flutter on a mobile application for PT Jasa Raharja, with previous experience developing internal web applications using React.js and Golang at PT Wijaya Karya. Familiar with application development, authentication and access control, database integration, Docker, and software testing. Also experienced in academic research projects involving Flutter and machine learning.

Experience

Mobile Developer (Flutter) July 2026 to Present
PT Kairos Utama Indonesia *(assigned to PT Jasa Raharja (Persero))*

- Contribute to the development and maintenance of a Flutter mobile application used by PT Jasa Raharja.
- Work with Development and UI/UX teams to implement and improve application features based on business requirements.
- Fix reported bugs and investigate application issues to improve stability and reliability.
- Support application testing, debugging, and maintenance as part of the development cycle.

Staff Engineering IT Intern November 2025 to June 2026
PT Wijaya Karya (Persero) Tbk

- Developed two internal web applications, Progress Report App and Lesson Learned System, using **React.js** and **Golang** to help centralize project data.
- Implemented role-based access control (RBAC), password hashing, and input validation for user authentication and application security.
- Used **Docker** to containerize applications and implemented PDF export features to support project reporting.

Web Developer Trainee, Smart Tourism PBL October 2025 to November 2025
BPVP Banda Aceh, Ministry of Manpower (Kemnaker RI)

- Participated in a 200-hour Project Based Learning (PBL) program focused on Smart Tourism Information Systems.
- Developed a web-based platform for managing tourism destinations and information using **WordPress**.
- Completed the program with a "Passed" certification status.

Research Team Leader (PKM-KC) February 2024 to August 2024
Ministry of Education, Culture, Research, and Technology Funding

- Led a 4-member team in developing *AutiVision*, a mobile application for an academic research project.
- Developed the Flutter mobile application and integrated a MobileNetV2 model with reported accuracy of 98%.
- Assisted with project documentation, budgeting, reporting, and intellectual property registration.

Programming Laboratory Assistant August 2024 to December 2024
Syiah Kuala University

- Assisted 30+ students in Python fundamentals, including data types, OOP, and basic algorithms.
- Provided code reviews and debugging assistance during programming laboratory sessions.

Machine Learning Cohort, Bangkit Academy 2023 August 2023 to January 2024
Led by Google, Tokopedia, Gojek, & Traveloka

- Worked in a cross-disciplinary team to develop a garbage classification model using MobileNetV3 with reported accuracy of 92%.
- Gained practical experience with **Python** and **TensorFlow** through machine learning coursework and project development.

Projects

Borbore Official (Corporate Website) borboreofficial.id
Corporate Website for PT Agro Beans Global

- Developed a corporate website using **Next.js** and **Tailwind CSS**.
- Implemented responsive, mobile-first layouts for different screen sizes.
- Improved website performance and achieved Chrome Lighthouse scores of **98 Performance, 89 Accessibility, 100 Best Practices, and 100 SEO**.

Finance Management Dashboard (Personal Project) Source Code
Expense Tracking Dashboard

- Built an expense tracking dashboard using **Vue 3** and **Tailwind CSS**.
- Integrated **Supabase** for transaction data and Google OAuth authentication.

Real-Time Quiz Management System July 2024 to September 2024
Computer Multi Challenge Day (CMD 2024)

- Built an online quiz platform using **React.js** and **Firebase** for 30+ concurrent participants.
- Developed an admin dashboard for monitoring participant scores in real time.

Education

Syiah Kuala University September 2021 to August 2025
Bachelor of Engineering, Computer Engineering

- Cum Laude, GPA: 3.67/4.00
- Thesis: Development of a Mobile Application for Autistic Children's Face Classification Using MobileNetV3.
- Publication: INFOTEL Journal, Institut Teknologi Telkom Purwokerto, Vol. 17, No. 3. DOI: 10.20895/infotel.v17i3.1363

Organizational Experience

PSDM Staff, HIMATEKKOM January 2024 to December 2024
Syiah Kuala University

- Helped organize and run member skills development activities.

Event Coordinator, HIMATEKKOM National Seminar October 2024
Syiah Kuala University

- Coordinated a national seminar with 80+ participants and assisted with sponsorship and event logistics.

Skills

Programming Languages: JavaScript, TypeScript, Dart, Python, Go (Golang), PHP, HTML5, CSS3

Frameworks: Flutter, React.js, Next.js, Vue.js, Node.js, Express.js, Tailwind CSS

Database: PostgreSQL, Firebase, Supabase, MySQL

Tools: Docker, Git, Figma, Postman, Canva

Soft Skills: Leadership, Project Management, Teamwork, Problem Solving, Communication, Critical Thinking
